

511 is your number for real estate and rental information via text message.

What We Do

We mobilize your listings 24-7. No more missed calls, or emails caught in the spam filter. With our text messaging-based system, your leads are automatically captured at the signpost before your prospects have even left the neighborhood.

We do the work so you don't have to. It's a snap for you to upload and add properties via our web portal. Once you've completed the listing, we send you customized, professionally designed signage for each property. Sales leads simply text the code on the signpost for listing information and pictures.

Baby boomers are now "texting" with their Gen X & Y kids—meaning 42% of Americans now pervasively text message. "Texters" not only live downtown and on campus, but are moving in next door right now. Text messaging works on any network, with any phone and unlike e-mail, is delivered real-time without worries of spam filters. Just one closed lead returns the investment in no time.

Want to make sure the phone is always answered on your behalf? We also offer an optional toll-free call center.
